Dear Mr Swinney

Approval was given in late 2021 for a £200,000 budget to complete the essential maintenance required to enable the Town Hall to reopen. Following a detailed assessment of the works required to upgrade the heating system work will commence Monday 11th July.

The aim is to have this work completed by 31st Oct 2022, followed by a series of compliance and safety checks, the building will re-open in December.

Your sincerely
